MANAGEMENT DISCUSSION AND ANALYSIS

1. INDUSTRY STRUCTURE AND DEVELOPMENT

The pharmaceutical industry in India is an extremely fragmented market with severe price competition and government price control. The industry meets around 70 per cent of the country's demand for bulk drugs, drug intermediates, pharmaceutical formulations, chemicals, tablets, capsules, orals, and injectables. With the advantage of being a highly organized sector, a number of pharmaceutical companies are increasing their operations in India.

2. OPPORTUNITIES AND THREATS

The major opportunities available are - (a) Global opportunity for increasing Generics and bio-generics market both in developed and emerging countries due to pressure on budgetary limitations of these countries as well as emergent patent cliff due to off-patenting of major high-value drugs (b) Low cost good skill destination for contract research and manufacturing and resultant opportunities in drug discovery as well as clinical trials (c) High growth of domestic market attracting multi-nationals both for brown field and green field investments in production and capacity building.

The threats to the industry are from - (a) Ever-greening strategy of MNCs for denying and limiting the patent cliff opportunities with debatable recourse to TRIPs and FTAs (b) Increasingly stringent regulatory and non-tariff barriers to generics markets in developed countries (c) Increased competition for generics and bio-generics production in terms of high capacity and production costs (d) High-entry barriers to enable market share in development of new drugs.

There is a need to differentiate a product from competition and establish a positive image of the drug and the company in the eyes of the customer.

3. PERFORMANCE

During the year under review, your Company has achieved a turnover of Rs. 85.26 Crores as compared to Rs. 80.11 Crores in the previous year showing net increase of 6.43%. The Company has earned a net profit after tax and depreciation of Rs. 7.23 Crores as compared to Rs. 7.14 Crores in the previous year indicating a rise of 1.26% as compared to the previous year. The marginal increase in profits is attributed to the increased cost of inputs and other incidental expenses. Your Company is confident of achieving higher profits in the coming years.

4. RISKS AND CONCERNS

Pharma companies are currently facing a number of challenges, including continued pricing pressure, tightening of product specifications by innovator companies, unpredictable market authorization timelines, lack of patient awareness and education on generics and mistrust among physicians and prescribers. The products are likely to come under

intense pricing pressure due to changing pricing and reimbursement policies of healthcare providers and governments. Entry of more and more companies into the segment is a given and this will further impact the profitability margins. Stringent regulatory barriers thwarting entry of generics is a major detrimental factor for launching products in some of the key markets. Further, regulations prohibiting branding of generics and promotion to physicians in lead markets virtually leave everything at the discretion of the pharmacist.

5. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

To provide reasonable assurance that assets are safeguarded against loss or damage and that accounting records are reliable for preparing financial statements, the Company has a proper and adequate system of internal controls.

The Company has in place well structured systems and procedures in line with the best of practices and well defined roles and responsibilities for people in all functions at various levels. The Company is certified as ISO 9001:2008 (Quality Management System Standard). Also, the Company has obtained GMP certifications from WHO (World Health Organisation).

Management review meetings are held periodically to monitor and to control functions of the Company.

6. HUMAN RESOURCES

The Company regards its employees as valuable asset and continuously reviews and evolves policies and procedures to attract and retain its pool of technical and managerial personnel through a conducive work environment.

7. CAUTIONARY STATEMENT

The Management Discussion and Analysis Report may contain statements that might be considered forward looking. These statements are subject to certain risks and uncertainties. Actual results may differ materially from those expressed in the statement as important factors could influence the company's operations such as Government policies, local, political and economic development, risk inherent to the Company's growth and such other factors.
